ZOOMMED AND THE ACQUISITION OF PRAXIS SANTÉ

Montreal, January 21, 2011 - ZoomMed Inc. (TSX-V: ZMD). In the scope of the completion of the conditional exclusive agreement to acquire **Praxis Santé**, **ZoomMed** announces it has received the waiver of some conditions and thus expecting the completion of the transaction before the end of the current trimester.

Accordingly, a portion of the aggregate counterpart payable for the acquisition by the Corporation will be made through the issuance of a maximum of 3,500,000 common shares of **ZoomMed** at a deemed price of \$0.20 per common share with another part of the counterpart being paid in cash. It should be noted that this acquisition would enable **ZoomMed** to diversify and consolidate its position in the Canadian Healthcare network, concurrently to its recent announcement regarding the launching and penetration of the important American Market. The marketing of Praxis Santé's products is foreseen shortly. **ZoomMed** will see to update the market when the transaction will reach a more advanced stage.

About ZoomMed

ZoomMed's developed the **ZRx Prescriber**, a technological innovative Web application that enables physicians to use a wireless device, such as the iPod Touch™, iPhone™, iPad™, Google Android™, other PDA's or computers, to write and rapidly deliver scripts. The **ZRx Prescriber** is quick, efficient and intuitive. Since it is a stand-alone product, it can easily be integrated to any Electronic Medical Record application (EMR).

For further information on **ZoomMed**, contact Mr. Yves Marmet, President and Chief Executive Officer (450) 678-5457, Ext 228, info@zoommed.com or visit our Web Site; www.zoommed.com.

About Praxis Santé

PraxisLab is a new application that enhances all aspects of the prescription filling process and the complete pharmacists patient file management. Fast, efficient and user friendly, its unique development concept provides a fast access to all its functionalities, thus allowing its users to be productive with a minimum training. PraxisLab uses state-of-the-art protocols and up-to-date software standards, allowing high compatibility with existing software, as well as new generation software.
