ZOOMMED SIGNS AN AGREEMENT WITH FAMILIPRIX GROUP

Montreal, April 4, 2011 - ZoomMed Inc. (TSX-V: ZMD) announces the execution of an agreement with Familiprix Group for the acquisition of an exploitation right of the PraxisLab software, a Web IT solutions for retail pharmacies.

This agreement occurs shortly after the acquisition, in February 2011, of Praxis Health Inc., a company which develops a complete Web based solution for the management of prescriptions and pharmacists' patient records.

"We are proud to have the privilege to work in collaboration with this major grouping of pharmacies and to have their trust", reported Mr. Marmet, President and Chief Executive Officer of **ZoomMed**.

"The different Healthcare networks in North-America are looking for state of the art solutions to optimize collaboration and information exchanges between Health Professionals. The dynamism of Familiprix Group is an evidence of it" adds Mr. Marmet.

ZoomMed capitalize on a powerful application portfolio that will allow it to bring a significant contribution towards the fulfillment of those objectives. PraxisLab distinguish itself by its technological innovative Web applications for pharmacists, of the same kind of ourselves and fully compatibles with those that we have developed ourselves with our **ZRx Prescriber** for physicians.

About ZoomMed

ZoomMed's developed the **ZRx Prescriber**, a technological innovative Web application that enables physicians to use a wireless device, such as the iPod Touch™, iPhone™, iPad™, Google Android™, other PDA's or computers, to write and rapidly deliver scripts. The **ZRx Prescriber** is quick, efficient and intuitive. Since it is a stand-alone product, it can easily be integrated to any Electronic Medical Record application (EMR). PraxisLab is a new application that enhances all aspects of the prescription filling process and the complete pharmacists patient file management. PraxisLab uses state-of-the-art protocols and up-to-date software standards, allowing high compatibility with existing software, as well as new generation software.
